REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens
of the Town of Newburgh:

I herewith submit the annual report of the schools of
Newburgh for the municipal year ending February 15,
1952.

| | 12 | 15 | 8 | 17 | 13 | 19 | 7 | 9 | 14 | | 114 |

The teachers in Newburgh are devoted to the best interests of your children. Three of our staff completed the extension course from the University of Maine—"The Teaching of Arithmetic"—given at Carmel during the fall term. Due to the extremely acute shortage of teachers and to the fact that our salaries are lower than in other larger communities, it is hard to fill vacancies. After the resignation of Mrs. Hand at the end of the fall term, Mrs. Theresa Chadbourne and Mrs. Louida Miller have kindly consented to substitute until a regular teacher could come. Their capable work is well known to you.

TEXTBOOKS AND SUPPLIES

The new English textbooks were purchased and delivered this winter. Other purchases included one new globe, a map, and regular purchases of primary books, spelling workbooks, etc.

REPAIRS

The enrollment at the Gilmore School at the beginning of the fall term was twenty-eight. It was therefore considered best to close this small schoolhouse and re-open the Bell schoolhouse which is much larger. Under direction of Mrs. Riley, of the superintending school committee, the building was shingled, papered and painted inside. Seats were purchased from the Town of Hampden.

Other items in the repair account were: the shingling (1/2 the roof at Knowlton and Center schoolhouses; sanding and painting black boards at the Knowlton; banking and putting on banking paper; minor repairs at other schoolhouses.

RECOMMENDATIONS

The superintending school committee and I recommend the following appropriations:

| | |
|---|------------|
| Common schools and high school tuition, | \$5,800.00 |
| Repairs of schoolhouses, | 700.00 |
| Superintendence, | 396.48 |
| Superintending school committee, | 46.00 |

We also urge your serious consideration of the article in the warrant which asks for the appointment of a committee to work with the superintending school committee in a school survey which might result in a consolidated school building. This may not be the time to make such a move but for the sake of the boys and girls

of Newburgh, I believe the subject should warrant serious thought.

In closing this, my twenty-first report of the Newburgh schools, I wish to thank all those who make my work so pleasant—the superintending school committee, teachers, parents and citizens, and the **children**, for whom the schools exist.

Respectfully submitted,

BERTHA W. CARTER,

Superintendent of Schools.

REPORT OF PUBLIC HEALTH NURSE

DIVISION OF PUBLIC HEALTH NURSING DEPARTMENT OF HEALTH AND WELFARE

January 1 to December 31, 1951

Public health nursing is concerned with better health for all individuals in your community. Knowing that this goal can never be attained without community co-operation and effort it is most important that good community organization and joint planning be carried out.

As good adult health is a result of early and progressive health teaching and practices, much of your nurse's time was spent in visiting expectant mothers, infants, and pre-school children.

Conferences were held with the school superintendent and teachers to discuss health problems and needs of the school children. Special problems were discussed with parents through home visits.

Prevention and control of communicable diseases has been a function of your nursing program during the past year.

Services of the crippled children's, pediatric and cardiac clinics sponsored by the State Maternal and Child Health Division have been made available for the purpose of early diagnosis and continued treatment of defects.

Although chest x-ray clinics are not held in your community these clinics are made available to those who need the service.

Three Child Health Conferences were held during the summer in your town. Physical examinations and immunizations against whooping cough, diphtheria, tetanus, and smallpox were given at each conference.

Today's world crisis is a disturbing factor in your community. To overcome this serious threat we must have high standards of community health so that the strength of the citizens of your town will not be weakened. The civilian population have their place along with the armed forces in keeping our country a democracy.

Respectfully submitted,

GEORGINA J. PATTERSON,

Division of Public Health Nursing,

Public Health Nurse.

**Re: Audit of the Town of Newburgh
February 15, 1950, to February 15, 1951**

Cash:

The cash balance at the close of the year was on deposit at the Merchants National Bank, Bangor, Maine. The check book balance was reconciled with the bank statement as of February 15, 1951, and found to be in agreement.

Accounts Receivable:

This receivable represents money due from the State on account of snow removal for which the town has not yet been reimbursed.

Taxes Receivable:

The records of the tax collector were examined and the warrant of commitment was in agreement with the assessors records. The commitment was accounted for by cash collections of \$14,312.88, and abatements of \$81.34, leaving uncollected 1950 taxes amounting to \$2,768.12, according to the records of the collector. Uncollected taxes for prior years amount to \$221.83.

Tax Liens:

The tax liens on file with the treasurer were examined and found to be recorded at the Registry of Deeds, Bangor, Maine. Credits and collections were checked for proper entries. The balance of 1948 liens was transferred to tax acquired property.

Tax Acquired Property:

This account represents property acquired by the town by foreclosure of tax liens.

Deferred Revenue:

1951 excise taxes were received prior to the closing of the books and this credit is carried forward to the 1951 municipal year for proper application.

Surplus:

At the close of the year, the town had a net surplus of \$3,162.47. Of this amount \$1,248.08 is reserved for authorized expenditures, leaving \$1,914.39 unappropriated for any specific use. An analysis of change in unappropriated surplus is presented in Exhibit E.

Trust Funds:

The several trust funds and their investments were examined and found to be properly invested with all income accounted for. The \$25,000.00 Knowlton Fund is shown as a matter of record although the Merchants National Bank of Bangor is the trustee of this fund, the town receiving the income only.

General:

The corporate surety bonds of the collector and treasurer were examined and found in order.

Revenue obtained from 1950 excise taxes was checked with the copies of the receipts and found to be in agreement. Of this income, \$1,526.95 was transferred to administration and the balance of \$374.52 credited to surplus.

Vouchers and payrolls were examined in part, and those examined appeared to be proper charges against the accounts involved.

All unexpended balances required by law to be carried forward, and all unfinished projects having unexpended balances were carried to 1951.

Preserve This Report!

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
